

Opportunity for Children & Young People to Have Their Voices Heard

Register for the **Right On Survey 2025** and give children and young people the chance to tell us about their views, feelings and experiences of life in Cornwall. The survey supports children's rights, providing an important opportunity for young people to have their voices heard and influence decision making.

The online survey will be live for four weeks in **March 2025** and it is **free** to participate. Every participating setting will receive a bespoke report summarising key findings. Find out more and [register your interest here](#). **Registration is open until Friday 31 January 2025.**

The Right On Survey 2025 follows the success of the 2023 survey which was completed by over 8,200 children and young people. The data gathered has provided Cornwall Council, education settings and partner organisations with a wealth of information on the views, opinions and experiences of young people. Settings told us they have used the findings to help improve the support offer for pupils, inform school development plans and in PSHE delivery.

Feedback from schools includes:

- “This is an excellent survey and allows us to evaluate our provision”.
- “Very detailed and relevant so useful to know what our children are thinking and feeling”.
- “Really useful to target our team around the child team to support various cohorts/year groups”.

Cornwall Council has commissioned DDM Health to provide the Right On Survey 2025 to children and young people in Cornwall. We are inviting:

- All education settings with pupils in Year 4 and above
- Organisations supporting children and young people not currently attending school, including home education groups, youth groups, foyer projects etc.
- Individual young people aged 9 and over not attending school will also be invited to participate, but they do not have to register yet.

The survey will include topics such as:

- Healthy Lifestyles
- Staying Safe & Community
- Being Involved and Connected
- Education & Learning
- Emotional Health & Wellbeing
- Cigarettes, Vaping, Alcohol & Drugs
- Relationships & Sexual Health
- Future & Careers

If you have any questions please contact childrensrights@cornwall.gov.uk.
